

Lab#2

Design Form of Student Registration and Employee registration with 11 fields.

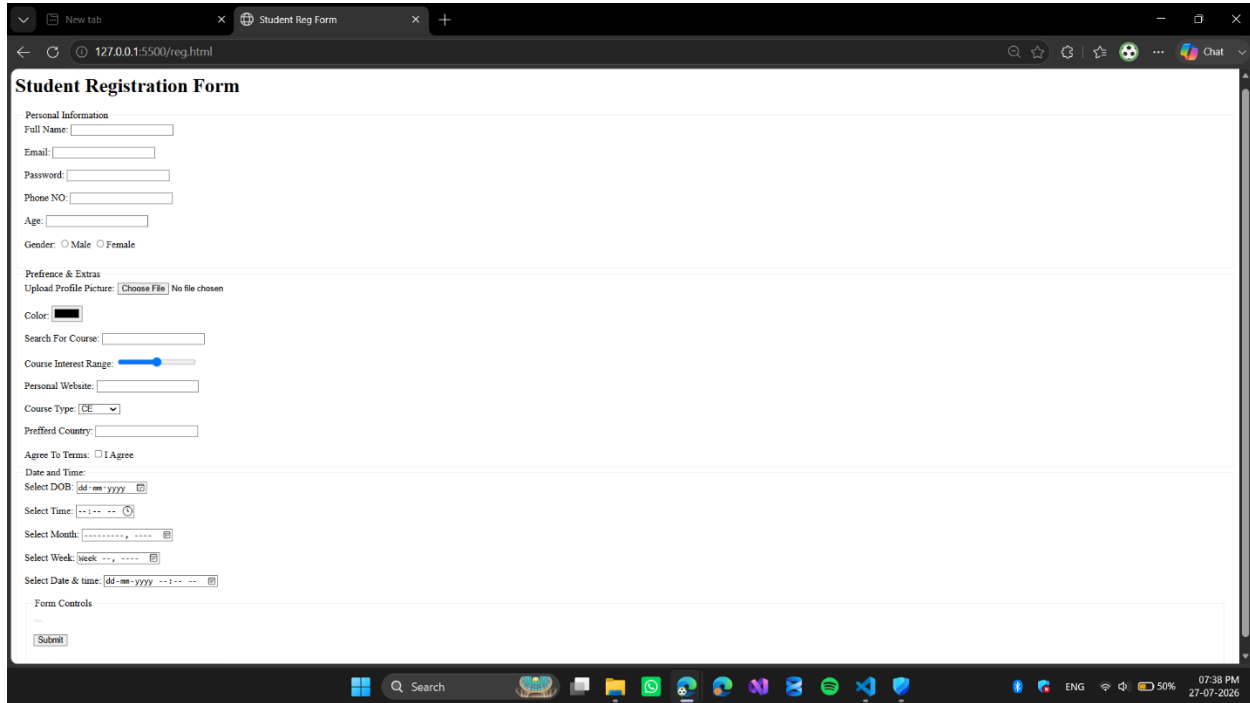

TAGS USED	ATTRIBUTES USED	DESCRIPTION
<!DOCTYPE html>	--	Declares the document as an HTML5 document.
<html>	lang	Defines the root element of the HTML document. The lang attribute specifies the language of the webpage.
<head>	--	Contains metadata, links, and information about the document that is not displayed on the webpage.
<meta>	charset, name, content	Specifies metadata such as character encoding and viewport settings for responsive design.
<title>	--	Specifies the title of the webpage shown in the browser tab.
<body>	--	Contains all the visible content displayed on the webpage.
<h1>	--	Defines the main heading of the webpage.
<form>	action	Creates an HTML form for collecting user input. The action attribute specifies the page where form data is sent after submission.
<fieldset>	--	Groups related form elements together within a border.
<legend>	--	Provides a caption or title for a fieldset.
<label>	--	Defines a label for a form control to improve readability and accessibility.
<input>	type, required, list, src, alt, height, width	Creates different types of input controls such as text fields, email fields, password boxes, radio buttons, checkboxes, date pickers, image buttons, submit buttons, and reset buttons.

	--	Inserts a single line break.
<select>	--	Creates a drop-down list for selecting one option.
<optgroup>	label	Groups related options within a drop-down list.
<option>	--	Defines an item within a drop-down list or datalist.
<datalist>	id	Provides predefined suggestions for an input element.
<button>	onclick	Creates a clickable button. The onclick attribute executes a JavaScript function when the button is clicked.

<script>	--	Embeds or references JavaScript code used to add functionality to the webpage.
-----------------------	-----------	---

INPUT TYPE	DESCRIPTION
text	Accepts plain text input (Full Name).
email	Accepts and validates an email address.
password	Accepts password input with hidden characters.
tel	Accepts telephone number input.
number	Accepts numeric values only.
radio	Allows the user to select one option from a group (Gender).
file	Allows the user to upload a file.
color	Displays a colour picker.
search	Accepts search text input.
range	Displays a slider for selecting a value within a range.
url	Accepts and validates a website URL.
checkbox	Allows the user to select or deselect an option.
date	Allows the user to select a date.
time	Allows the user to select a time.
month	Allows the user to select a month and year.
week	Allows the user to select a week of the year.
datetime-local	Allows the user to select both date and time.
image	Displays an image that functions as a submit button.
submit	Submits the form data to the specified destination.
reset	Resets all form fields to their default values.
